

## PSI Scholars Application Statement

Dominican University

Name:

Email address:

Planned major:

1. If you could design any career for yourself, what would it look like, and how could your university education help you begin that career? (Maximum 200 words)

2. Choose one or more of the qualities of PSI scholars and describe how you demonstrate that quality (here is the list for reference: Should be curious; Love learning; Might not have everything figured out yet, but have problem-solving skills; Don't need to be perfect academically, but show promise; Can try and fail and keep trying; A 'you can do it' attitude). (Maximum 200 words)

3. Think about your educational and life experiences and explain one event or experience that has been important in shaping your identity as a scientist. (Maximum 200 words)

4. Please list all extracurricular activities and community service that you completed that are related to science and math:
