INTRODUCTION

The Key Indicators Tool (KIT) was developed for the Council of Independent Colleges (CIC) by the Austen Group in 2004. This annual benchmarking report provides 20 indicators of institutional performance for small and mid-sized private, not-for-profit colleges and universities. Part A covers student information (enrollment, recruitment, progression) and information related to the faculty. Part B covers a wide range of financial information, such as tuition revenue and financial aid, as well as resources and expenditures. The KIT benchmarking report is an important component of CIC's data initiatives, designed to enhance institutional effectiveness and decision making. This confidential resource is prepared for the exclusive use of CIC member presidents, who in turn may choose to share some or all of the report with key staff, board members, or other constituents. Originally developed with support from the William Randolph Hearst Foundations, CIC gratefully acknowledges RNL's continued financial support of CIC's benchmarking reports.

New for 2023 KIT

- **Carnegie Doctoral/Professional Universities** . In previous years the basic database against which CIC member institutions were benchmarked was comprised of Carnegie Master's and Baccalaureate institutions only. Beginning with the 2023 KIT, Doctoral/Professional institutions are now included in the benchmarking database and comprise one of the Carnegie trend lines in the report. This allows CIC institutions classified as Doctoral/Professional to compare themselves with similar institutions and provides a fuller picture of the higher education landscape for independent colleges and universities.
- **KIT Part C**. CIC member institutions were invited to review enrollment information from IPEDS breaking out undergraduate and graduate student numbers and to submit tuition revenue and fees and institutional aid information specific to these two student populations. Using these data and the same format as KIT Parts A and B, an individualized KIT Part C was prepared for participating members presenting enrollment and financial trends for undergraduate students and graduate students separately. Over 75% of CIC institutions have some sort of graduate programming.

Data

The KIT uses data from the Integrated Postsecondary Education Data System (IPEDS), the major national source of publicly available information on postsecondary institutions, provided by the U.S. Department of Education's National Center for Education Statistics. The KIT dataset contains information on 872 four-year, private not-for-profit colleges and universities belonging to six Basic Carnegie Classification categories that represent 95 percent of CIC's membership: Baccalaureate Colleges–Diverse Fields, Baccalaureate Colleges–Arts & Sciences, Master's Colleges and Universities (smaller programs), Master's Colleges and Universities (medium programs), Master's Colleges and Universities (larger programs), and Doctoral/Professional Universities. Institutions are identified using the new 2021 Carnegie Classification. Only institutions with complete data for all five years of comparison are included in each table and chart.

Beginning with the 2021 KIT, CIC has used the IPEDS "Instructional, research and public service FTE staff" and "Part-time instructional, research and public service" variables for indicators Student/Faculty Ratio (Key Indicator 6) and Part-time Faculty (Key Indicator 7). Previously CIC used "Instructional staff, primarily instruction, Full-time and Part-time." As a result of this change, the KIT report will rely on the IPEDS calculation for instructional FTE and a broader definition for instructional staff. For the majority of CIC institutions this will make no difference, but for a few it will result in a more useful measure of student-faculty ratio and percentage of part-time faculty.

Data from IPEDS were not altered nor were missing values imputed unless corrected information was provided to CIC directly from an institution. CIC member institutions with incomplete IPEDS data for the most recent year were given the opportunity to submit data prior to the 2023 KIT report's update. In situations where some data for an institution were unavailable, the tables that present the institution's data contain blank cells and the data were not plotted on that indicator's charts.

Format and Analyses

The KIT provides each institution with regional and national comparisons over a five-year period based on four sorting criteria: region, financial resources, enrollment size, and 2021 Basic Carnegie Classification. Four pages or worksheets are devoted to each of the 20 indicators, one page for each sorting criterion. Each page contains two charts: a national comparison and a regional one.

Individually Customized. A customized KIT has been prepared for each CIC member college and university. Each institution's unique data are plotted against national and regional backdrops. On pages presenting comparisons by financial resources, enrollment size, and Carnegie classification, a box in the upper right corner indicates the institution's corresponding category.

Five-Year Trends. To understand how an institution has performed over time and to indicate the direction of a trend, the charts cover five-year periods. Indicators 1-11 cover academic year 2017-2018 through academic year 2021-2022. Indicators 12-20 cover academic year 2016-2017 through academic year 2020-2021. In every case, the most recent IPEDS data are used. When data are presented as whole numbers, a five-year percentage change is calculated.

Medians versus Means. The KIT uses national and regional median values (identical to the 50th percentile). The advantage of using median values rather than the mean (average) is that the median is less influenced by high or low extremes, thus providing a more meaningful mid-point for comparative purposes.

Four Sorting Criteria. The 20 indicators are presented according to four criteria: region of the country, financial resources, enrollment size, and 2021 Basic Carnegie Classification. The individual pages for each indicator are identified on the Excel tabs as "R" for region; "F" for financial resources; "S" for enrollment size; and "C" for Carnegie classification.

1. **Region:** Each institution is located in one of the six regional categories as outlined below. These regions were selected to reflect the distribution and affinity of CIC member institutions and are not identical to those assigned in IPEDS.

Region	State
Far West	Alaska, California, Hawaii, Nevada, Oregon, Washington
Mid East	Delaware, District of Columbia, Maryland, New Jersey, New York, Pennsylvania
Midwest	Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Ohio, Wisconsin
New England	Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont
Southeast	Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, West Virginia
West	Arizona, Colorado, Idaho, Kansas, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Utah, Wyoming

2. Financial Resource Quartile: Each institution was placed in one of four quartiles based on an institution's financial resources. The financial resource measure was calculated by converting two equally weighted indicators: *Net Tuition Revenue per Student* (Key Indicator 15) and *Endowment Assets per Student* (Key Indicator 18). An average of the three most recent years is used to create a percentile rank of all institutions in the dataset. Each institution was then assigned to a national and regional quartile based on the distribution of the KIT dataset for the most recent year.

3. Enrollment Size: Institution size uses four enrollment categories: (1) fewer than 1,000 students; (2) 1,000 to 2,000 students; (3) greater than 2,000 to 3,000 students; and (4) greater than 3,000 students.

4. 2021 Basic Carnegie Classification: The KIT provides comparisons based upon the following six basic Carnegie classifications established in 2005 and revised in 2021: Baccalaureate Colleges–Diverse Fields, Baccalaureate Colleges–Arts & Sciences, Master's Colleges and Universities (smaller programs), Master's Colleges and Universities (medium programs), Master's Colleges and Universities (larger programs), and Doctoral/Professional Universities. These classification groups comprise 95 percent of CIC's membership. For additional information about the 2021 Basic Carnegie Classifications, including definitions of various categories, visit:

The IPEDS Data Feedback Report

Each fall the National Center for Education Statistics sends a summary benchmarking report to college and university presidents that compares IPEDS data from the most recent year for their institution to a select group of similar colleges and universities. This Data Feedback Report (DFR) may be a useful companion to CIC's Key Indicators Tool (KIT) report. Data for both reports come from the same source, although not all of the indicators are identical. Furthermore, the DFR provides data for only the most recent reporting year, whereas the KIT presents trends over the most recent five years. The Data Feedback Report for any Title IV participating institution is available on the IPEDS website:

The Council of Independent Colleges

The Council of Independent Colleges (CIC) is an association of 750 nonprofit independent colleges and universities, state-based councils of independent colleges, and other higher education affiliates, that works to support college and university leadership, advance institutional excellence, and enhance public understanding of independent higher education's contributions to society. CIC is the major national organization that focuses on services to leaders of independent colleges and universities and state-based councils. CIC offers conferences, seminars, publications, and other programs and services that help institutions improve educational quality, administrative and financial performance, student outcomes, and institutional visibility. It conducts the largest annual conferences of college and university presidents and of chief academic officers in the United States. Founded in 1956, CIC is headquartered at One Dupont Circle in Washington, DC. For more information, visit

CIC BENCHMARKING SERVICES

CIC is pleased to offer the following benchmarking services to enhance the Key Indicators Tool (KIT).

Comparison Group KIT

Fee: \$500

This service provides CIC members a customized KIT report with the 25th, 50th, and 75th percentiles for each indicator for either one or two comparison groups selected by the institution. Customized groups permit more refined comparisons that may be useful for particular strategic objectives. Comparison groups may range in size from five to 25, though groups of 10 to 15 are recommended. Selecting two groups provides for multiple comparisons, perhaps of a peer and an aspirant group (see “Guidelines for Selecting Comparison Groups” available on the CIC website). Comparison institutions may be selected from among private, not-for-profit, four-year colleges or universities in the United States.

Online Consultations

Fee: \$650 (KIT only)

Fee: \$950 (KIT and FIT)

CIC has arranged with Mike Williams, president of the Austen Group, to provide web-based consultations using an institution’s KIT report with senior staff, boards, or faculty groups. The interactive online session employs voice and shared graphics, allowing participants to engage in substantive conversation about the institution's concerns and goals in light of the KIT data. This service provides a cost-effective approach to enhancing the value of the KIT for your institution. It also is possible to extend what is generally a one-hour consultation to 90 minutes to include the companion Financial Indicators Tool (FIT) in the presentation. The fee for a consultation using both the KIT and the FIT is \$950. Consultations should be scheduled at least four weeks in advance.
