

Undergraduate Class of 2023

Alumnae/i Success and Outcomes

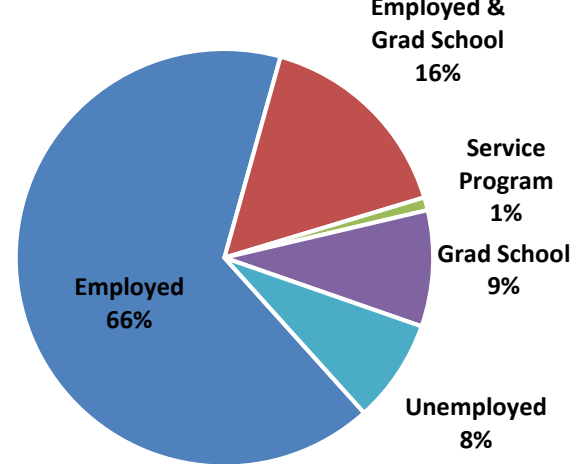

Dominican University not only provides students with a solid foundation to any further educational pursuits they may choose to follow, it also helps students develop skills that will prepare them for a global job market. Dominican graduates are desirable candidates as they search for employment or post-graduate education.

Outcomes include:

- 92% Success Rate**
 Within a year of graduation, 92% of undergraduate program completers are employed, engaged in a service program, and/or attending graduate or professional school.
- 25% Continued Study in a Graduate Program**
 A total of 25% of bachelor's degree recipients pursue graduate or professional degrees immediately following their undergraduate programs. Some of the institutions they attend include Loyola University Chicago, Rosalind Franklin University, University of Illinois at Chicago, and Dominican University.
- Employment and Average Income**
 66% of students are employed full-time within a year of graduation. The average entry-level income for these students is \$45,100.

Undergraduate Class of 2023
