Degree or Certificate Awarded	MBA Degree + Verification Statement	MS in Nutrition Degree + Verification Statement

A thorough review of transcripts and resumes/CVs for all applicants is undertaken to determine whether additional coursework might be required for any of these programs.

- Each program requires that a B- or better be earned in all ACEND-required DPD Professional Courses.
- Conditional program acceptance may be granted with requirement of successful completion of specified coursework/classes prior to starting the program's supervised practice rotation courses based on recency of coursework, content of previous courses taken, and grades earned as determined by program review of transcripts and course syllabi.
- Conditional acceptance may include requirement for repeat of or additional courses (including any course(s) for which successful completion is prerequisite to registration in required DPD courses) and all necessary documentation.

Review of international applications includes addressing specific requirements associated with the applicant's international status regarding visas, WES transcript review, etc.
