

CAREER DEVELOPMENT

THURSDAY LIVE TALK

Be a guest and speak at one of our live sessions. Thursday Live Talks provide a virtual space to reach a large group of students and present available opportunities from your company or organization. Students benefit from the insights of an employer as they ask questions about your company or organization and the opportunities available. As a recruiter – you will benefit from an informed, interested candidate pool.

WHY INSTAGRAM

As we are no longer able to hold on-campus events for employers to present opportunities offered to students, Instagram allows us to reach large groups of students on a popular social media platform.
